GRAMOS TACKY BOOTH COATINGS - A4512

STICKY BOOTH COATING

Gramos Tacky Surface Coating offers a water-based solution designed specifically for painted spray booth walls. Its unique formulation ensures a tacky surface that doesn't completely dry at ambient temperatures. This tackiness serves a crucial role by efficiently collecting and retaining dust, acting as a proactive measure in maintaining a dust-free spray booth environment. This is especially vital in preventing airborne particles that could compromise the quality of the finished articles. Additionally, the ease of washing off the contaminated coating with water adds to its convenience and practicality, making Gramos Tacky Surface Coating a reliable solution for maintaining optimal conditions in spray booth areas.

Type:	Tacky Surface Coating
Use:	Spray Booths
Finish:	Matt
Substrates:	Galvanised Steel
Application:	Roller, Brush, Spray

SUITABLE TOOLS		
Brand	Name	Code
ProDec	4" Flat Masonry Brush	PR4GY
ProDec	4" Twin Head Mini Roller, Frame & Tray Kit	PRRT015
ProDec	10pk 4" Tiger Medium Pile Mini Roller	PRRE040

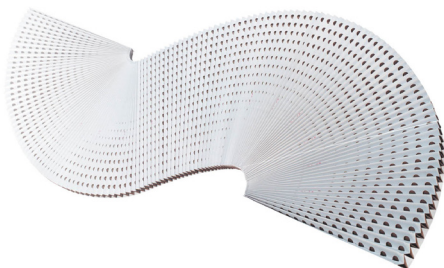

ADVANTAGES

- Clear coating
- Solvent-free, water-based product
- Long lasting tacky film
- Water washable - easily cleaned
- Can be reapplied immediately
- High degree of dust and paint over-spray retention
- Keeps booth free of airborne contaminants
- Improved finish quality
- Retain booths 'as new' condition

BINKS CONCERTINA BOOTH FILTER -207229EF-SC

BOOTH FILTERS

Binks Pleated Paper Filter presents a user-friendly, super-efficient solution for filtration needs. With a pleated asymmetric cardboard paper design in a concertina, it unfolds to an impressive 9.2m x 0.9m. The filter operates on the principle of 'inertia separation,' introducing radical changes in direction for paint-laden air as it navigates the filter. Thanks to the weight of paint particles, they collide with the paper, becoming effectively attached. Designed for vertical use, this self-supporting filter is easily fitted, ensuring a seamless and efficient filtration process. Its simplicity and effectiveness make it an ideal choice for various applications in the realm of air filtration systems.

ADVANTAGES

- Ideal in open-faced spray booths
- Self-supporting and easily installed
- High dust holding capacity.
- Self-supporting, 2 ply high strength cardboard paper.
- Bright white finish

Type:	Concertina Booth Filter
Use:	Spray Booths
Finish:	White Cardboard
Substrates:	Spray Booths
Application:	Manual

AXALTA VITERFLOOR PF - PF004 , PF700 1K FLOOR PAINT

ViterFloor PF Floor Paint, a 1K polyurethane-enhanced gloss alkyd coating, proves ideal for painting factory and workshop floors. This specialised formula by Axalta offers durability and a sleek finish, ensuring a long-lasting and visually appealing surface. Specifically designed for industrial settings, its polyurethane modification enhances resilience, making it resistant to the general wear and tear of workshop areas. Available in standard grey or any bespoke colour you want. Elevate your workspace aesthetics while prioritising functionality with these quality floor paint options—perfectly suited for the demanding environments of factories and workshops.

SUITABLE TOOLS		
Brand	Name	Code
ProDec	4" Flat Masonry Brush	PR4GY
ProDec	9" x 1.75" Heavy Duty Woven Roller	PRRE005
ProDec	9" x 1.75" Push Fit Plastic Handle Cage Frame	PRFR005
Unbranded	9" Black Plastic Paint Tray	9PT
ProDec	9" Plastic Liners (QTY 5)	9PTLINER
ProDec	2' - 4' Button Lock Extension Pole	PREX003
ProDec Advance	48mm x 50m Precision Edge Masking tape	ATMT003

ADVANTAGES

A single pack, easily applied floor coating for light to medium duty

Mild solvent blend - minimum reaction with existing floor coatings

Rapid drying to minimise downtime

Suitable for workshops, offices, factories, garages, showrooms, and warehouses

Type:	Polyurethane-Alkyd
Use:	Floor Coating
Finish:	Gloss
Substrates:	Concrete, Wood
Application:	Roller, Brush

RESBUILD FASTPATCH - RESBUILDFASTPATCH/X CONCRETE & MASONRY REPAIR

Resbuild Fastpatch stands as a formidable solution for swift and enduring repairs on concrete and masonry surfaces. This two-component epoxy resin mortar boasts high strength, applied with precision using a trowel. Comprising epoxy resin, Polyamine curing agent, graded aggregate, and colour pigments, it forms a potent blend. When applied to a well-prepared surface, the mixture swiftly undergoes curing, resulting in a robust repair. The mended area not only exhibits durability but also showcases resistance to abrasion and chemicals. Elevate your repair game with Resbuild Fastpatch—a reliable choice for prompt and long-lasting restoration of surfaces.

Type:	2K Epoxy
Use:	Floor Coating
Finish:	Neutral
Substrates:	Concrete
Application:	Trowel

SUITABLE TOOLS		
Brand	Name	Code
ProDec Advance	2" Duragrip Filling Knife	DGFK2
ProDec Advance	3" Duragrip Filling Knife	DGFK3
ProDec	Filling Blades (QTY 4)	PFB4P

ADVANTAGES

Pre-packed units - ready to use

Fast curing characteristics

Impact and abrasion resistant

Frost resistant and impervious to water

Excellent mechanical properties

Unaffected by a wide range of acids, and industrial chemicals

Negligible shrinkage

High bond strength - no primer required

Cures under damp, cool conditions

RESBUILD SF COATING - RESBUILDSF COATING-TINT/X 2K SOLVENT FREE EPOXY FLOOR PAINT

Resbuild SF Coating emerges as a potent two-pack epoxy solution, delivering both protective and decorative attributes to concrete, steel, and various substrates. The system consists of pre-weighed portions of base and curing agent, seamlessly blending to create an abrasion-resistant finish upon application. This versatile coating finds its prowess in serving as a waterproof, durable, and chemical-resistant solution for floors or walls in workshops, industrial units, garages, food preparation areas, factories, and more. Additionally, it excels as an internal lining for storage tanks, accommodating diverse contents like oils, chemicals, water, or raw sewage.

Type:	Solvent Free 2K Epoxy
Use:	Floor Coating
Finish:	Gloss
Substrates:	Concrete, Masonry
Application:	Roller, Brush

SUITABLE TOOLS		
Brand	Name	Code
ProDec	4" Flat Masonry Brush	PR4GY
ProDec	9" x 1.75" Heavy Duty Woven Roller	PRRE005
ProDec	9" x 1.75" Push Fit Plastic Handle Cage Frame	PRFR005
Unbranded	9" Black Plastic Paint Tray	9PT
ProDec	9" Plastic Liners (QTY 5)	9PTLINER
ProDec	2' - 4' Button Lock Extension Pole	PREX003
ProDec Advance	48mm x 50m Precision Edge Masking tape	ATMT003

ADVANTAGES

- Solvent free, low odour
- Very good chemical resistance
- Excellent adhesion to concrete and steel
- High Build
- Tough and durable
- Easily applied
- Hygienic and easily cleaned
- Slip resistant options
- Range of colours

RESBUILD GRIPFAST - RESBUILDGRIPFAST-CLEAR/5 2K EPOXY ANTI-SLIP FLOOR COATING

Resbuild Gripfast, conveniently supplied in composite packs, is a high-performing epoxy coating system designed to deliver slip resistance over 5 square meters. Its single-coat application expedites the curing process, allowing quicker access to trafficked areas. Beyond its impressive slip resistance, the coating boasts excellent abrasion and chemical resistance. The slip-resistant aggregate, crafted from graded aluminium oxide, ensures a secure footing. This versatile solution finds its application as a protective coating, adding slip resistance to concrete, metal, and wood surfaces. Elevate safety and durability simultaneously with Resbuild Gripfast in various settings.

Type:	2K Epoxy
Use:	Floor Coating
Finish:	Textured
Substrates:	Concrete, Metal, Wood
Application:	Roller

SUITABLE TOOLS		
Brand	Name	Code
ProDec	4" Twin Head Mini Roller, Frame & Tray Kit	PRRT015
ProDec	10pk 4" Tiger Medium Pile Mini Roller	PRRE040
ProDec Advance	36mm x 50m Precision Edge Masking Tape	ATMT002
ProDec Advance	48mm x 50m Precision Edge Masking Tape	ATMT003

ADVANTAGES

- Solvent free, low odour
- Excellent slip resistance
- Tough and durable
- Easily applied
- Hygienic and easily cleaned

WASTE COLLECTION

We provide a complete waste collection service for all spray shop waste streams, from empty cans and used rags through to leftover solvents and paint.

Waste disposal will be carried out with appropriate paperwork and documentation, giving you a clear and concise audit trail showing the whole process. Our objective is to provide you with a cost-effective, sustainable and environmentally friendly solution for removing your waste.

Waste Collection Benefits

- One-stop solution for finishing supplies and waste removal
- Keep your workshop clear of any hazardous materials
- Recovery, re-use and recycling of waste
- Ensuring your waste compliance
- Free environmental audit available
- Let Symphony handle the collection for you with full documentation and labelled tins
- All our drivers are ADR trained to handle all materials
- Please contact your area manager to start your clean up process

What We Collect

- Solvent waste paint, or water-based waste paint, we can collect it all.
- Waste liquid material
- Used thinners/gun wash
- And much more....

NEW WASTE COLLECTION PROCEDURE

For those of you that use our waste paint collection service, we need to inform you of a change in the way we will operate this service in the future. Operational changes and major price increases in the waste treatment plant and recent legislation changes have necessitated this new procedure. Waste paint will only be collected in sealed Symphony 25L cans that your local Symphony branch has labelled up with your company and account number. You cannot re-use old cans.

You will be asked at the time of ordering the empty Symphony 25L cans what waste will be poured in the cans, so that they can be labelled correctly. Your choices will be as follows:-

- A GENERAL MIXED PAINT WASTE (IE WITH REACTOR/CATALYST ETC) - SOLVENT
- B GENERAL MIXED PAINT WASTE (IE WITH REACTOR/CATALYST ETC) - WATERBASED

We will deliver the empty cans and then you fill them up to within 50mm/2 inches below the top. Please maintain this air gap as it is important in case of swelling.

The prices will be as follows:-

- A £ 9.68 (+ £0.72 LABEL) PER EMPTY WASTE CAN - £10.40 IN TOTAL
- C £43.25 PER 25L WASTE CAN (FOR A AND B ABOVE)
- D £75.60 WASTE/ADMIN FEE PER COLLECTION (ANY AMOUNT OF CANS IN ONE COLLECTION)

** For example if you state that you have poured non-catalysed waste into the waste can and the treatment plant identifies (through their digital probing) that it is mixed waste or has rags, gloves or other foreign debris inside, you will be invoiced for the penalty charge of £10 per can.

There are few companies that can take waste paint away but Symphony remains one of them. These changes will ensure that we can continue to meet the requirements for solvent disposal and reclamation.

Call us on 0800 840 8201 to book a waste collection.
If you require more information, or want to arrange a free environmental audit, please speak to your local branch.

HMG CONTRACT EMULSION - DEC301 WHITE MATT PAINT FOR WALLS AND CEILINGS

HMG Contract Matt Emulsion stands out as a top-tier, water-based decorative trade matt emulsion, boasting a brilliant white finish. Its exceptional opacity only enhances as the paint dries, ensuring impeccable results even with a single coat. Crafted for effortless application, this emulsion is tailored for interior plaster walls and ceilings, providing a smooth and elegant finish. Its user-friendly design makes it an ideal choice for both professionals and DIY enthusiasts seeking efficiency without compromising on quality. Transform your spaces with ease and precision, as HMG Contract Matt Emulsion delivers a seamless and lasting touch of sophistication to any interior.

ProDec	10pk 4" HD Foam Mini Rollers	PRRE036

ADVANTAGES

Quick air-drying formulation

Durable and tough: Provides resilient finishes

Available in any colour

Choose from Matt, Satin, or Gloss

Wide applications: Perfect for touching up and decorating in industrial settings

MOLDEX 2505 FFP3 SMART DUST MASKS - 250501 RESPIRATORY PROTECTION

The Moldex 2505 Smart FFP3 disposable respirator is engineered to protect users against harmful fumes, vapour and dust, and even provide protect against aerosols and oil-based mists. The DuraMesh structure ensures the mask is robust and durable, it maintains its shape whilst reducing consumption of potentially harmful particles. The ActivForm creates a universal seal, adjusting to different face shapes and movements. The Ventex valve reduces moisture and heat, giving the wearer a much more comfortable experience.

Type:	Respiratory Protection
Use:	All painting, dust extraction
Size:	ONE SIZE

ADVANTAGES

- Soft nose cushion for increased comfort
- Form fits to your face with no manual adjustments required
- A strong, durable structure that lasts
- Adjustable straps allow you to adjust the mask quickly and easily
- Valves reduces heat and moisture inside the mask for added comfort
- EN 149:2001 + A1:2009 tested & certified

COVERALLS PERSONAL PROTECTIVE EQUIPMENT

Coveralls, crafted from flash-spun high-density polyethylene, emerge as a vital shield for individuals engaged in painting and maintaining spray shops and factories. This hooded coverall, permeable to air and water vapor, stands resilient against water-based liquids and aerosols. Its design not only provides a robust barrier against fine particles and fibres but also ensures breath-ability, allowing ventilation for comfort during prolonged use. In the dynamic environments of spray shops and factories, where exposure to various elements is inevitable, these coveralls serve as a reliable protective layer, offering a comprehensive defence against potential hazards and contributing to a safer working environment.

Type:	Coveralls
Use:	All painting
Size:	Small, Medium, Large, X-Large, XXL

ADVANTAGES

- Works as an effective barrier against water-based chemical liquid splashes
- Breathable material ensures comfort
- Protect the wearer against airborne solid particulates, small spatters, or fumes.
- Ergonomic fit allows for freedom of movement
- Longer sip pull makes it easier to use when wearing gloves
- Innovative sleeve design offers a great fit even when working overhead

UNIGLOVE BLUE NITRILE GLOVES - GS0032, GS0033, GS0034, GS0035

PERSONAL PROTECTIVE EQUIPMENT

Uniglove Unicare Blue Nitrile Gloves stand as a latex-free solution, ideal for individuals with latex allergies. The powder-free design ensures protection without causing hands to dry out, maintaining comfort during prolonged use. Phthalate-free and crafted for versatile applications, these gloves find their niche in cleaning, decorating, DIY, and maintenance tasks. The high-quality nitrile material not only offers reliable protection but also ensures dexterity for intricate tasks. Whether tackling household projects or engaging in professional maintenance work, Unicare Blue Nitrile Gloves provide a barrier against allergens, making them an indispensable choice for those seeking safety, comfort, and flexibility in various tasks.

Type:	Gloves
Use:	All painting, cleaning, spraying
Size:	Small, Medium, Large, X-Large

ADVANTAGES

Latex-Free: Ideal for individuals with latex allergies

Powder-Free: Prevents hands from drying out during use

Phthalate-Free: Ensures a safe and non-toxic option for users

Versatile Use: Designed for cleaning, decorating, DIY, and maintenance tasks

High-Quality Nitrile: Offers reliable protection and maintains dexterity for various applications

ORAPI KLEENALL PASTE - D7030/0.5, D7068/5

GENTLE, HYGIENE PASTE FOR CLEANING HANDS

Kleenall Paste emerges as the go-to solution for post-painting clean-up, renowned as the market leader in effectively tackling stubborn contaminants. Specifically designed for industry professionals like paint sprayers, engineers, print workers, and mechanics, it addresses the challenge of cleaning hands in environments where harsh solvents may be detrimental. This blend of potent yet gentle surfactants, mild solvents, emollients, and a mild abrasive ensures rapid cleaning without de-fatting the skin or causing irritations. Lightly perfumed and free rinsing, Kleenall Paste offers a pleasant and efficient hand-cleansing experience, establishing itself as a market-leading product for removing paint, resins, and adhesives with ease.

Type:	Hand cleaner
Use:	On hands
Size:	500ml, 5 Litres

ADVANTAGES

Does not contain micro-beads

The abrasive is non-polluting and will not accumulate in the environment

Removes all types including 2 pack type

Removes resins and adhesives

Removes inks, grease, and grime

No need to use harmful solvents

Citrus fragrance

Leaves hands clean and refreshed

Economic in use

ORAPI KLEENALL LIQUID - D7067G

GENTLE TO SKIN, CLEANING LIQUID FOR HANDS

Kleenall Liquid stands out as a dispensable beaded hand cleanser, holding its position as the market leader in addressing stubborn contaminants effectively and safely. Tailored for industry professionals such as paint sprayers, engineers, print workers, and mechanics, it meets the challenge of cleaning hands in environments where harsh solvents might pose risks to the skin. This liquid formulation contains no harmful solvents, featuring a blend of potent yet gentle surfactants, mild solvents, emollients, and a mild abrasive for swift cleaning action. Kleenall Liquid ensures rapid and efficient hand cleaning without de-fatting the skin, making it a trusted choice for removing the toughest contaminants in various professional settings.

Type:	Hand cleaner
Use:	On hands
Size:	5 Litres

ADVANTAGES

Does not contain micro-beads

The abrasive is non-polluting and will not accumulate in the environment

Removes all types including 2 pack type

Removes resins and adhesives

Removes inks, grease, and grime

No need to use harmful solvents

Citrus fragrance

Leaves hands clean and refreshed

Economic in use
